

Statistics 1

You can collect, organise and study data to inform you about the world in which you live. During a recent dive on the Great Barrier Reef, Kirra took underwater photos of the marine life that she observed.

green turtle

butterfly fish

snubfin dolphin

sea snake

blue-spotted ray

blue clam

lemon shark

cuttlefish

nautilus

Kirra wants to organise her photographs into folders in her images file. She has decided on four categories. Which photographs will she put in the following folders? Write the photograph numbers on the folders.
