Sounds of the Bush

by Susan D. Cox

Birds are cheeping singing their songs
Flying in the clear blue sky.
Hear the sounds of the flapping wings
As we listen to them fly.

CHORUS:

*This is the bush where we live
Nature is everywhere,
The creatures, the trees, the land,
The fresh, clean country air.*

You can listen to the sounds
Wind is blowing through the trees.
Leaves are falling gently to the ground
Grass trees moving in the breeze.

CHORUS:

*This is the bush where we live
Nature is everywhere,
The creatures, the trees, the land,
The fresh, clean country air.*

Wasps and hornets building their nests
Crickets chirping noisily.
Gentle sounds of the butterflies
Bees are buzzing happily.

CHORUS:

*This is the bush where we live
Nature is everywhere,
The creatures, the trees, the land,
The fresh, clean country air.*
